COUNCIL'S PLAN

\$18,000 Appropriation Being Considered by City

Plans are being considered by the statem for Port Artian's business district within the near future.

This fact was intimated during the meeting of the city commissioners Atyan, 5,154, this morning at 11 o'clock, when a Texas Company, body of representative citizens and cominttee from the Chamber of Commerce headed by R. L. Drake met with the commission to discuss plans for a "better lightning 'system" in the down-town aren.

Proposal Submitted

Mayor Logan let it be known dur ing the consultation that the commission is contemplating an appro printion approximating \$18,000 for the legterment of the flighting system, and approunced that the commission wif 🕏 deliberate - over the proposals \$. ~ ted during the morning session he East Texas Elec-

The comp company presented plan form white light way for the business district, together with additional lighting facilities for the desidential reations, The plans submitted call for the expenditure of \$1.713 per annua on the white way and for \$5.741 for the residential area. 42 600 C. P. Lanus

Under the plan, 12 600 candle power lamp's would be installed from Houston avenue to Shreveport on Procter, costing \$2,360 per annum and for which the company would give the city a credit of \$291 on sev en old lamps now in use. Twelve the randle-power lamps would be installed on Austin from Fourth street to Fifth street, to cost \$960 per year, and on which the city would be given a credit of \$134 for the replace ment of four old lamps. The plan for the business-area also included the installation of 12 600 candle power lamps on Waco avenue from Fourth dreet to Fifth micet, costing \$960. n year, while a credit on this amount of \$100 is to be granted by the company on three old lights.

In the residential area, the plan alimitted by representatives of the slectric company called for the installation of 12 lamps, 250 candle power. nt \$2,100 per year on Procter street from Shreveport to Stilwell boulevard. with a credit of \$200 on seven lamps to be replaced; 60 lamps on Procter from Stilwell boulevard to DeQueen, same candle power, at \$5,000 per year, with a credit of \$250 on 10 old lights, and for 27 lamps of 250 candle power on Procter from DeQueen boulevaid to Vandevoort believard, at \$1.-200 per year, with a credit of \$100 on I old limps to be granted.

The lights in the residential section would be installed six to the block. making a striking white way, as evplained during the commission meet

Says Austin Should Be Center J. R. Demry, who opened the dis-

ssion concerning the business area's lighting system, suggested that Ausfin avenue from Fifth street to Fourth street should be given greater consideration by the commission than ony other section of the business zone at the present time, due to the fact, as Company, he pointed 'out, that "there are a large number of business houses located along this way which need to be be properly illuminated."

Denny asserted that "we feel that some cross streets in the city ought to be given more lights, and would like to see Austin avenue included in the light budget."

John R. Adams, who was present. declared that in the very near future he intends construcing a large business house, "probably six storics high," on Austin, and that the section of the city is now largely occu-pied by business houses which need the lights suggested.

Denny let it he known that the Retail Merchants association, of which be is president, is heartily in favor of the Austin avenue proposal, field nue as suggested during this discussion, we feel that Austin avenue, unlighted properly, should be given first consideration.

From Mr Drake, the commission learned that the Chamber of Commerce is in accord with the Retail Merchants association, and that they favor a better lighting system for the cature city generally,

Mayor Logan, at the conclusion of the discussion announced that the commission will take the matter under consideration and will make 💵 early report on what the city lighting budget will call for.

Pension High for La. Confederates

all cut up with heavy hauling.

LAKE CHARLES, fa., June 5,-Louisiana ranks high among the southern states granting liberal pensions to Confederate veterans, Under provisions of the constitution of 1921. the legislature has enacted a law granting a pension of not less than \$20 a month to all veterans and their widows, and of \$30 a month to those whose property is valued at less than \$2000. In addition the Soldiers' Home at New Orleans is samply provided for, the residents there receiving excellent care and being given \$2 a menth as spending

The new state constitution makes mandatory pensions, not in excess of \$30 a month, for Confederate veterans who have resided in the state for five years and who were honorably discharged, or served until the surrender, provided the veteran's income from his private affairs is less than \$1000 a year. The provisions also apply to widows of such veterans whose marriages were contracted prior to 1901. Lucius L. Moss, commander of

the Louisiana division of the Sons of Confederate Veterans declares that as a result of the webome extended by Louisiana to veterans of other states to make their home tuerd, one-tilth of lamistang's pension rol of 5294 are soldiers who served from other states

These are divided as follows Mississippi 364, Alabama 202, Texas 121, Georgia 97, Arkansas 72, Tennessee 37, South Carolina 25, Missour: 28. Virginia 19. North Carolina 13. Kentucky S. Florida 6 and Mary-
